

## THE SWORN CIRCULATION OF THE DAILY CAPITAL IS 3,800

### GOOD CANDY. WAS BURNED

Blaze in Confectionery Factory on Fourth Street.

### ROOMERS MADE HASTY EXIT

Syrup Made by Melted Chocolate and Sugar Impeded the Work of the Firemen.

All sorts of good candy going to waste was the sad sight that a big crowd watched in the fire in the Alberta Confectionery Company's factory on Fourth street, north of Jasper, last night. Melted chocolate and sugar made a syrup which covered the walls and tables and clogged the clothes of the firemen, impeding their actions. A number of large bottles of the essence of peppermint exploded in the heat with the result that the firemen were nearly smothered and peppermint could be smelled for blocks around.

Apart from the smell and the sad sight of the wasted candy there was lots of excitement. The storerooms above the factory were filled with roomers and when the fire was discovered they began making hasty exits laden with their furniture. This they piled in a vacant lot near by.

The fire, which is believed to have started from the candy boilers, was discovered about 7:30. The fire department was quickly on hand and by good work confined the flames to the large room in the northwest corner of the building. The building is owned by J. H. Picard. The damage to it was fully covered by insurance. Mr. Woodworth, the proprietor of the confectionery company, said that the damage to the stock would not be very great as the only stock there was the product of the last few days which had not been removed to the storeroom. This part of the loss was also fully covered by insurance.

Alexander Potter, C.E.

### BRING SEWAGE EXPERT HERE

It is quite likely that the city will ask Alexander Potter, C.E., a New York waterworks and sewage expert, to come to Edmonton to prepare plans on an extensive scale for waterworks and sewage systems for the city. Engineer Latorelli, who interviewed him in New York, strongly recommended that Mr. Potter's services be retained. His fee is \$50 a day and travelling expenses, but owing to the great importance of having a good sewage and waterworks system, most of the council feel that the cost of Mr. Potter's services would be repaid many times over. The matter will be finally settled on Thursday night's meeting.

It's a habit of ours to have the best shoes in the city. Kelly & Moore.

### QUESTION AS TO SALARY

Should Winchester be Paid for Month Away With Hockey Team.

The city council balked last night at a suggestion that the city should pay one of its employees three weeks' extra salary because he had been away with the Edmonton hockey team in its recent effort to lift the Stanley Cup. A letter from Jack Winchester, who is employed in the stores and works department, and who obtained a month's leave of absence to play goal for the hockey team, and incidentally to get married, brought the matter before the council. Winchester asked for \$57.50, which had been deducted from his month's pay. He had received two weeks' holidays, two weeks' leave of absence, and was detained for a week in Montreal en route to the bad weather.

"It was having a good time; I don't see why the city should pay him for it," said Ald. Hyndman. "And I don't see why the city should pay for bad weather in Montreal either."

"The city was very widely advertised through these games," said Ald. Mould. "I think that we should be proud to have such men in the city, and we should not object to paying him for the time he was away."

The matter was referred to a special committee for a report.

### Is Charged With Murder.

Springfield, Mass., April 6.—The western murder last Thursday evening of Miss Martha B. Blackstone by a masked burglar at the home of Mrs. Sarah J. Dow was last night formally charged against Bertram G. Spencer, a clerk, 28 years of age. Spencer was identified by Mrs. Dow and Miss Lucy Dow, mother and sister respectively of Miss Harriet P. Dow, who was seriously wounded by the robber's bullet.

### WAY IS ALL CLEAR FOR COMMISSION

Counsel Report That They Will be Ready to Proceed After the Adjournment.

After spending a week in delving through the mass of documents left by the different counsel for their personal, wading through the files in the telegraph office and determining the relevancy or otherwise of the different messages, they came across to try matter over were J. H. Picard, Messrs. Walsh and Johnson. He counsel for the Royal Commission investigating the Waterways question, announced today that when the commission meets again they will be able to go ahead with their work.

During the interval time, has elapsed since the adjournment was taken they have been very busy and there is a great deal of work to do and documents to be looked over, but they are confident that they will be ready when the judges are.

"We will be ready to take up the matter and go forward with it," is the text of a few remarks made by Mr. Walsh this morning. As might be expected, he was not in a position to make any statement as to what had been found out or what would be brought forward before the commission, and, beyond saying that they would be ready, he refused to divulge anything further.

### Rich Shipment of Ore

Elk Lake, April 6.—A large and exceptionally rich shipment of twenty tons of silver ore has just been dispatched from the Lucky Godfrey mine. Part of it assayed 19,500 ounces to the ton. Pure silver weighs 24,000 ounces to the ton.

### WEATHER FORECAST.

Saskatchewan and Alberta—A few light local falls of snow or rain, but mostly fair and cool.  
Manitoba—Fair, milder.

### Expert's Report Scores Municipal Organization.---Radical Changes

#### Recommended---Big Issue Raised

### CITY SHOULD BE A BIG COMPANY

Interesting Recommendations Made in Report of W. J. Francis.

### BLUNDERS AT PUMPING HOUSE

Bricks are Inferior, Says the Report, and the Whole Work Has Been Badly Done.

"That there have been extravagances, and that better conditions could have existed, I certainly consider to be correct, but I cannot for a moment think that any one civil official can be held responsible therefor. The responsibility, in my judgment, it is placed on the council itself, more particularly since it has in its hands the means of properly conducting the business of the city and has not made full use of them. I refer to the city charter and the provision therein for a Board of Commissioners. It cannot be denied that the Board of Commissioners appears never to have been properly organized, and I desire to state most emphatically that in my judgment it is absolutely impossible for Edmonton efficiently and economically to operate her public utilities until the Board of Commissioners is constituted on a proper business basis. I do not believe there is a man living today who can do justice to himself or to the department of which he may be superintendent under the present municipal organization. At the same time with a properly constituted Board of Commissioners the operation of the municipal owned utilities can easily be made an ideal."

### Report Was Thorough.

The above words taken from the Francis report which was read at the special council meeting this morning is the pith of Mr. Francis' recommendations. The whole matter of city organization was thoroughly gone into and several radical changes suggested. The power plant, pumping station and the construction of the electric light, waterworks and street car system to the power plant were gone into thoroughly. The report was all read at this morning's meeting, and although it contained 199 pages it only took two and a half hours to read it, as it was fully illustrated with

Continued on Page Four.

### CASE WAS DISMISSED

Magistrate Saw No Ground for Charge Against A. J. Layton

The case against A. J. Layton, of Millet, who was charged by F. F. Shaw with the theft of cattle, was dismissed by Magistrate Cowan in the police court yesterday afternoon, as it developed that Layton had done nothing to cause the charge to be laid. A bailiff, it was said, seized the cattle and Layton was perfectly within the law in his action. It is stated that Layton has now issued a writ for damages against Shaw for false arrest. Shaw's statements in regard to the note are also alleged to be false.

### Buns Drove Him to It

Montreal, April 6.—Pleading guilty in the police court to the charge of bigamy, Thomas Dalton, of Point St. Charles, set forth in justification of himself that Mrs. Dalton No. 1 had fed him on buns until he had to leave her, and take another wife. The day he quit her she gave him a dozen buns for dinner and he could stand her and her buns no longer. He was committed for trial.

Brass Candlesticks, just imported. Jackson Bros.

### CITY GOING INTO REAL ESTATE

Will Purchase Sites to Sell or Lease for Industrial Purposes.

The city is now going to get into the real estate business. This was decided at last night's council meeting, when the report of the industrial committee was adopted. In connection with the effort to get industries to locate here, it was decided to purchase land suitable for factory sites, and lease or sell the property to the various firms that may be induced to settle in Edmonton. It is thought the city would be able to offer the land at cheaper rates than could be secured from other sources. The Commissioners were directed to advertise for the land immediately. About two acres will be required.

### REPORT PLEASED NORWOOD PEOPLE

Engineer Said Burning of Manure at Incinerator Should Stop.

### TO ACT AS SOON AS POSSIBLE

Mayor Lee Promised the Edmonton Improvement League That Council Would Act Promptly.

A crowd that filled the council chamber to the doors and overflowed into the corridors was on hand last night at the council meeting to see what the council was going to do in regard to the incinerator question. The majority of those present were members of the Edmonton Municipal Improvement League, and they all expressed themselves as satisfied with City Engineer Latorelli's report and with the assurances of the council members that the incinerator would be done away with as soon as any other method of disposing of garbage and manure could be found.

Mr. Latorelli's report was very full. He first of all recounted the results of his visits to several cities where incinerators are in use. Some of the places visited were: Winnipeg, Minneapolis, Oak Park, Indianapolis, Columbus, and Westmont, a suburb of Montreal.

(Continued on Page 5)

### RUSH IS STILL ON

Miners and Prospectors Crowding into Northern Ontario

Toronto, April 6.—Between four and five thousand miners took out the provincial mining licenses in Ontario one day recently. The exact figures will not be obtainable at the department of Mines for some days yet, until reports from the various recording offices are received, but indications are that a greater number of men than ever before in Ontario's history will devote themselves during the coming year to diligent quest for the riches concealed in mother earth.

The preliminary call of the recording offices for the necessary payments goes to show that the demand was fully as great, if not greater, than that of last year, which was by a considerable margin the biggest then on record. Under the act the license is supplied at a nominal figure of \$5 and remains in force to the end of March in the following year unless cancelled for some cause. By this means the department is enabled to keep supervision of all miners engaged in operations anywhere in the province.

Scottish Rite Rings in 14k gold, \$10, complete, our own make. Jackson Bros., Jewellers.

### HOT WORDS OVER MARKET SITES

Opposing Speakers Cheered by Crowds of Their Supporters.

### IT WAS HARD TO KEEP ORDER

Finally the Matter Was Again Left Over Until Special Meeting on Thursday Night

"It was the wildest sort of a wild-cat scheme. It was merely done to boom property in that part of the town," Kenneth McLeod.

"Hear, hear!"—Ald. McManis.

"These remarks were made in the discussion that took place at last night's council meeting in regard to the removal of the present market site at the proposed location on First street."

A. E. May, representing a large delegation, introduced the question with the permission of the council.

"If this question were put to the people now a far different vote would result," he said. "There are many things that were not considered at the time the vote was taken last February. The question of vested interests has apparently received no consideration. The present site has been the market site since the earliest days of the city. Many men have established their businesses there which they cannot move."

"I am at a loss to understand why it should be moved at all. The present site is the most central that could be had. There has been much talk of turning the square into a park or of building the city hall there. But the council is preparing the spend considerable money in additions to the present city hall which shows that a new city hall is in the dim and distant future. Until there is some prospect of a new city hall being built it would be foolish and unjust to change the present market site."

### Was Vote for a Hay Market?

J. D. Blayney also spoke along the same lines, pointing out that when the recent vote was taken to raise the money for the present site it was understood that it was to be for a hay market. J. H. Watt stated that all the lots were originally purchased for a market site only. Commissioner

Continued on Page Four.

### GENERAL BOOTH IS ILL

Head of Salvation Army May Not Recover

London, April 6.—Alm. Booth, head of the Salvation Army, is seriously ill at his home on Queen Victoria street. He was seized with fainting spell on Sunday, necessitating the cancellation of all his engagements. Since his attendance upon the General for his present illness means a general breakdown. He is 84 years old and his health has been failing rapidly the last few years. General Booth seems to realize that the end is not far off and expressed his pleasure to several of his co-workers who called on him that the affairs of the army were in such shape that his passing would be without serious effect.

### Aged Woman Was Killed.

Brookville, April 6.—Mrs. Alex. Ingram was instantly killed yesterday afternoon by a shunter while crossing the tracks at Elm street. She was in her ninth year. A switchman standing on the street attempted to push her from the track when she came within reach of her, but failed to do so.

Spring Suits you'll find hard to pass at Kelly & Moore's.

### SPEED LIMIT CHANGED

Motor Cars May Go 10 Miles an Hour—Peddlers on Market.

The council last night amended the "speed limit" bylaw, fixing the maximum speed for all vehicles, except police, fire, ambulance, and street cars, at ten miles an hour. This means that the autos of the city will be able to travel at a good clip without being summoned to appear at the police court.

An amendment to the license bylaw was also passed, whereby peddlers on the market will be brought under its scope. This change was made because of the refusal of Magistrate Cowan to convict two men charged with peddling on the market, under the existing bylaw.

### Expects Just to Slide in.

Kenosha, Ill., April 6.—M. J. Scholze, mayor of Kenosha, introduced a new feature into Kenosha politics when he distributed 5,000 bars of toilet soap as a means of calling attention to his candidacy for re-election. The soap is ordinary toilet soap, and on one side of the bar is raised letter is "toilet soap" while on the reverse is a picture of the mayor and the inscription "A clean administration." The mayor recently came out with a declaration for a cleaner city.

### Pittsburg's Big Job

Pittsburg, Pa., April 6.—Mayor Magee's signature is now the only thing necessary to start the work on the removal of Pittsburg's "hump" and raising the low lying streets above floor level. The "hump" is Brant's hill, a site of Indian battles, now a hill portion of the business district. Its removal will cost several million dollars for which a bond issue has been provided.

### TWO MURDERED IN LOOTING OF BANK

Robbers Shot Manager and His Assistant and Got Away With \$400,000 in Cash.

Pittsburg, April 6.—A bank robbery with Wild West features was pulled off by four desperados in McKeesport last night with the murder of two men and the possibly fatal shooting of another. The robbers themselves, covering their escape with a volley of revolver shots, got safely away with at least \$400,000 in cash from the offices of the Victor Loan and Trust Co. Samuel Friedman, general manager of the company, was shot down. His assistant, Isaac F. Schwartz, was shot in the head, and Robt. King, a passer-by, was seriously shot in the groin.

### Newfoundland's Timber Boom

Toronto, April 6.—According to two Newfoundlanders, Messrs. B. M. McCreath and M. L. Parrell, of St. John's, there will be a notable advance in the pulp industry in that island and in Labrador during the coming season. Several large plants for the making of paper pulp, will be established this year, and because of the rush to the spruce and fir country, and the open-handed policy of the "people's party" there is not a mile of timber left to be leased by the Newfoundland government.

### Elevator Was Burned

Winnipeg, Man., April 6.—The Scott elevator at Dalby, Man., was destroyed by fire Monday night with 12,000 bushels of wheat.

### Child Killed by Whiskey

New York, April 6.—Four year old Joseph Klein died yesterday from intoxication. His relatives, the police say, got him drunk with whiskey at a family party. John Silver, 23 years old, cousin, has been locked up on a charge of homicide.

Come and see how our shoes differ from others. Kelly & Moore's.

### SENATOR CAN SEE VISIONS

Says Canada's Independence May Come in Fifty Years.

### CAN'T BE TIED TO COAT TAILS

Senator Peter McSweeney in New York Aims Some Interesting Views on Country's Future.

New York, April 6.—Senator Peter McSweeney of Montreal, New Brunswick, who has come to New York for a little rest and relaxation, thinks that the tariff agreement between Canada and the United States was due to the recent heavy Democratic victory in the Fourteenth congress district of Massachusetts. Senator McSweeney also predicts eventual independence for Canada.

"That victory of Foss in Massachusetts changed the complexion of affairs," said Senator McSweeney yesterday at the Belmont. "I have not the least doubt that it brought about the meeting between President Taft and Minister W. S. Fielding which led to the final conference in Washington. It is quite apparent that this country tariff reform is in the air."

"As for the agreement itself, I do not see how a victory can be claimed either for Canada or the United States. The result is a fair arrangement. Canada is your third best customer, and it buys \$2 worth from the United States where it sells at \$1. It is only equitable that Canada should get treatment commensurate with its importance as a customer."

"What is the real difference between a Canadian and an American?" Senator McSweeney asked.

"I don't see any difference. There are 1,000,000 of our people over here now and they make pretty good Americans. We are getting back from seventy-five to a hundred thousand a year in our Northwest, but it will be many a year before we get back the equivalent of what we have given. We have sent some of our very best men and women too, and they have settled from Maine to California and many of them have been heard from."

"Do you think Canada will become an independent power?"

"Canada is bound to be independent," was the answer with emphasis. "She cannot remain tied to the coat-tails of England forever. The great body of Canadians are not imperialists. Independence is bound to come. It may take twenty five or even fifty years, but Canada feels able to take care of herself and she is out of her swaddling clothes. Why, if this tariff question had been left to England to settle it would have taken years instead of twenty-four hours. There is no doubt that Canada will in time send a direct representative to advise the British Ambassador as to sentiment in Canada on all questions."

### CITY MAY BE INDICTED

Coroner's Jury Scores the City of Toronto in Its Verdict.

Toronto, April 6.—The coroner's jury investigating the death of James O'Sullivan, who died in the city hospital after being confined there as a lunatic since September 13th last, returned a verdict yesterday as follows: We, the jury aforesaid, respectfully, but strongly, urge that in view of the manner in which lunatics in custody are at present treated by city and County authorities in being housed with vagrants, thieves and harlots in the common jail contrary to statute, the Crown Attorney for the county of York immediately indict the municipality of Toronto for not having provided the accommodation called for by law for lunatics in custody and for whom room cannot be found in the asylum."

### Guilty of Manslaughter.

North Bay, April 6.—James Moran was found guilty of manslaughter at North Bay assizes yesterday for the killing of William Dyson in a fight.

## ENGLISH RUGBY TEAM COMING

The Secretary of the Local Club is Arranging a Game With the Oxford and Cambridge Side.

It is now almost an assured fact that Edmonton will have an opportunity to see a crack English rugby team this fall. Secretary D. L. Robinson, of the local rugby football club, has taken action regarding the visit to Canada this year, of a combined Oxford and Cambridge side. After making a canvass of all football players in the city, both adherents of the Canadian and English styles, Mr. Robinson says the consensus of opinion seems very much in favor of trying to arrange a game here. Consequently, he has presented to the manager of the tour, writing Edmonton's claim to recognition. With all the local football enthusiasts working in unison, there is no question that a team can be got together, which will be capable of putting up a good argument against these famous British visitors.

## THE Y.M.C.A. FOOTBALL TEAM

The football team to represent the Y. M. C. A. against Alberta College this evening at 6:15 sharp will be picked from the following: Vickerman, Allen, Short, Clarke, Stockdale, Boyd, Dow, Newman, Nicholson, Thompson, Grant, Brown, Crows, and Lloyd. Refreshments will be served at the "Y" after the game.

## ARTHA SAYS HE DIDN'T IMBIBE

Indignantly Denies the Fact That he was Intoxicated on his Birthday. Only Drank Mineral (?) Water.

Chicago, April 2.—"I wish you fellows would leave me alone," was Jack Johnson's hoarse yell today when interrogated as to the report that he had "punched" enough wine at his birthday party last night to float a Dreadnought.

"The sporting writers appreciate me, but all you ordinary reporters are libelous in me. That wasn't wine I drank last night. It was mineral water."

Johnson was indignant over yesterday's report of his social piece de resistance. "You all have had me eating 'mashed to death, drinkin' mashed to death, joy-ridin' mashed to death. With all the local football enthusiasts working in unison, there is no question that a team can be got together, which will be capable of putting up a good argument against these famous British visitors."

## THE HAT TRAINS AT SPOKANE

The Medicine Hat team of the Twilight League will do its spring training in Spokane. Arrangements have been made with the Washington Valley Power Company for the use of Natarator park and Manager Hulen has ordered his men to report for the first practice at Spokane April 20.

## DEACON'S FIRST CHAMPION TEAM

Story of How he Trained a Bunch of High School Boys and Made Them Interscholastic Champions of Iowa.

Deacon White, the peerless leader of the Edmonton baseball club, for 1910, has been manager of a number of teams all over the western states, and during his nine years in professional ball, has handled five championship teams.

Deacon White says that it is his ambition to land the Western Canada League this year for Edmonton, and when the Deak sets his mind on a thing, he generally gets it.

It is doubtful whether the winning of the W. C. L. league will give Deacon any more satisfaction than a championship he won quite a few years ago in a little town in Iowa. After he was graduated from North Western University in 1901, Deacon went to a nearby military academy where he acted as physical instructor, and also coached a baseball nine which won the Interscholastic Championship of Illinois, and also succeeded in defeating a number of the Universities. Deacon's Alma Mater amongst the number.

Manager White then drifted out to a small town in Iowa, where only claim to prominence was that it had a horse team that usually cleaned up, at competitions. Deak, who used to do the 100 yards in 1-5, was pressed into service on this team, but his heart yearned for baseball. The town boasted a mediocre nine which was very much "no account," so Deacon turned his thoughts towards developing a high school team. The principal, when asked if he wanted a championship team, said that it sounded very nice but he didn't think the material was there. However, he gave Deacon, carte blanche, and our peerless leader, who was not much older than some of the students, started in.

There was only one pupil that had ever played ball before and he had been spare man on the town team. This boy, Benson, was a natural ball player, and Deacon coached him to pitch. The question of a catcher was a hard proposition, but a youngster, full of grit, was picked out, and taught to hold the speedy Benson. The other members of the team were just youngsters, few weighing less than 100 pounds, but they could swing a bat. It was practice, morning, noon and night for them. Deak even went over to the school at recess and the consequence was the boys practically lived with a bat and glove in their hands. Training was practical considerably and that was what won them their games.

Benson, who was the star of the team, batted fourth, and usually some of the preceding men would get on bases by their superior running powers. Then along would come Benson and clear the bases. They went along all season on their victorious career and ended up by winning the State championship by a score of 6-4.

The people of the town made a veritable hero of Deacon, and he could have had the position of principal of the high school if he had desired it.

This same Benson is now a pitcher in the Southern League and a mighty good one at that. Deacon tried to land him for this year's Edmonton team, but he couldn't secure his release.

## AWLFIE TAKES TRIP HOVER 'OME

The Famous Runner will Return to the Motherland This Summer. Thinks Races will be Easy Picking.

New York, March 6.—It will not be at all surprising to see Alfie Shrubbs take a trip to England this summer. Alfie has a bad leg, but it is mending rapidly, and he now thinks he may be able to run again by the time the warm weather comes around again. He realizes that the crop of distances running on this side of the pond are a bit too fast for him, and he thinks it will be easier picking in Old England.

## WESTERN CAN. CRICKET ASSN.

A Movement is Under Way in B.C. to Ally all the Western Provinces Into one Body and Hold Yearly Tournaments.

Vancouver, April 5.—British Columbia cricket clubs have been asked to co-operate with the clubs in Manitoba, Alberta and Saskatchewan in the formation of a Western Canada Cricket Association. The father of the scheme is A. R. Morrison of Winnipeg, who recently paid a visit to Vancouver, Victoria and other points between here and Winnipeg. It has been felt generally that the time has arrived when such an association would insure the best representation in all Canadian cricket matches, and would also be a means of bringing together cricketers from all parts in a yearly tournament which would be held in Winnipeg, Calgary, Edmonton, and the Pacific coast cities.

It is confidently expected that the entire province of British Columbia will lend its hearty support to the movement, as it will be in the interests of the game to organize such an association. The Vancouver cricket club will probably take the matter up at the next meeting, while the Victoria clubs are also considering the advisability of joining with the clubs of Manitoba, Saskatchewan and Alberta in the organization of the new association.

## THE SAME OLD JIM ARCHER

Star Catcher of the Cubs Used to Gallivant Around the Diamond With Dinnie McGuire.—Those Were the Happy Days.

"It may be of interest to know," says the Regina Spectator, "that Jimmy Archer, the regular backstop of the Chicago Cubs, since John Kling left the fold, is the same Archer that on several occasions played in Regina with the famous Virden team. Dinnie McGuire played third, while Bert Orr of this city, did the hurling and it is generally admitted that Orr and Archer made the best battery that ever performed in these towns. Archer, at that time used the famous "squat throw" for which he is famous, and on account of which Hughie Jennings, of the Tigers, passed him up along Chance of Chicago, to snatch him.

## JOHN COUSINS IS HIS NAME

Turned Down by the W.C.L. he now Aspires to be Business Manager of the Regina Club.

The ambitious Mr. Cousins, who did so well to be the secretary of the Western Canada League, has hopped up again. He is keen after a baseball office of some kind, and wots not how important it is. He simply must have a title of some kind. His latest exploit is to apply for the position of business manager of the Regina baseball club. From the remarks of the Regina press on the subject, it does not look as if Mr. Cousins's chances are very good. They say that they cannot afford a business manager, even in the face of the applicant's strong qualifications.

As the Edmonton team starts training on April 15th, a number of rubbers will be required. Here is your chance, Mr. Cousins for a good job. It will also give you an opportunity to come in contact with some real ball players. We are keeping the job open for you.

## CALLIES HAD GOOD PRACTICE

The Callies had a good workout on the Exhibition grounds on Monday night. The turnout was large and from the play of some of the new men the Callies have made some good catches. The committee wish to inform the players that they have fixed on Monday, Wednesday and Friday nights as practice nights and hope that the players will keep these dates in mind.

## PAYSON WESTON IS INSANE

An Employer of the Santa Fe States That the Squirrels are After the Long Distance Ped.

Streator, Ill., April 6.—Edward Payson Weston, who is attempting to walk from coast to coast in ninety days, passed through this city at 4 p.m. today. He is eleven days ahead of his schedule and thinks he will complete the trip in seventy-five days. During the brief stay here J. D. Kinnard, an employee of the Santa Fe, railroad, who is attending the veteran pedestrian on this trip, stated that Weston is crazy on the subject of walking.

"I have been with Weston constantly since he left Los Angeles, on February 17," said Kinnard, "and I believe he is insane while walking. He is given to violent fits of anger, and we do not dare to go near him when there is a crowd around."

## Refused to See His Wife

"At Kansas City he charged me with trying to impede his progress and assaulted me with a rain of abuse before 4,000 people. I did not dare to go near him while we were in that city. Mrs. Weston endeavored to see her husband while he was in Kansas City, but he refused to see her. When a reporter attempted to question him concerning his wife he became frantic and threatened to do the newspaper man bodily injury. Usually in his saner mind following these outbreaks Weston apologizes and asks me to treat him like a child."

"Weston's secretary left New York with him and traveled back as far as Laramie, N.M. Here the old man became enraged over some trivial matter and discharged his employee. The attendant claimed that Weston will not allow persons to walk nearer than ten feet behind him because of fear that they will step on his heels and cause the blood vessels of his feet to burst."

## WILL BE A LACROSSE SERIES

Provincial League will Consist of High River, Calgary, Edmonton, Lethbridge and Strathcona.

Calgary, April 5.—President Hicks, of the Calgary lacrosse club, has decided to call the lacrosse meeting on Friday evening next instead of Wednesday, as at first announced. The change has been made owing to the horse show, as it was thought that this would interfere with the attendance at the meeting. Allan McDowell stated yesterday that the meeting of the Provincial League would not be held for a few days, as it was thought it would be better to give the towns interested in lacrosse a chance to get organized. With High River, Edmonton, Strathcona, and Lethbridge holding meetings this week it is expected that President Stanton will call a league meeting some time about the middle of this month.

## BRUCE STUART HAS RETIRED

The Ottawa Hockey Player, Noted for his Generosity, Will Never Play Again.—Renfrew Wanted Him.

(Special to the Capital)

Ottawa, April 6.—Bruce Stuart, the Ottawa hockey captain, and one of the greatest team generals in the business has announced his retirement from hockey for good after capturing Stanley Cup for his home town in 1908-09. He claims he has done enough and doesn't intend to take any more chances.

When the Renfrew magnates started the price of hockey stars falling, the Ottawa captain was offered a contract for \$2,000 and a bonus if he landed the championship for them. He declined through pure loyalty to the home town.

## LOCAL LACROSSE TEAM MEETS

At the Re-Organization Meeting Held Last Evening, Officers Were Elected for the Ensuing Year.—Many New Players in Town.

From the tone of optimism that prevailed at the meeting of the Edmonton Lacrosse Club, held in the Y.M.C.A. last evening, it would appear that the Canadian national game is to have a decided revival in this city.

There was a large attendance of players and all seemed anxious for grounds to be procured, so practices can be started immediately.

The following officers were elected: Patrons, Mayor Lee, John A. McDougall, M.P.P., J. R. Boyle, M.P.P., Matthew Barber, M. McGowan, H. V. Shaw, C. H. Belanger, R. Secord, J. B. McCulla, J. H. Mercer, R. Jolly, W. A. Griesbach, Thos. Knoles, Chas. Taylor and W. Griesbach, J. H. Morris. Hon. president, Lieut.-Governor Bulger. Hon. vice-president, Hon. C. W. Cross. President, George Scott. First vice-president, Wm. Powers. Second vice-president, Garth Chambers. Secretary, W. A. Leask. Managing committee, Messrs. May, Goodall and McPherson.

The secretary was instructed to write Calgary and High River in regard to arranging a game here at an early date, and the managing committee will arrange details of grounds at an early date.

A meeting of the Provincial Lacrosse League will be held about the middle of this month and Edmonton will be represented at the meeting.

## Lalonde With Nationals

Montreal, April 6.—Lalonde will likely be playing manager of the National lacrosse club for the coming season and vigorous efforts will be made by the French-Canadians to get a strong team. L. B. Odinet, of the Odinetosque, has offered to donate \$500 to the club, to be added to the amount Lalonde will be offered for the season. Subscriptions to the extent of \$1,700 have already been secured.

## Rube Waddell is Married

St. Louis, Mo., April 5.—George Edward Waddell, pitcher for the St. Louis American baseball team, and Miss Madeline Mearns, of Hattiesburg, Miss., were married last night. Waddell recently obtained a divorce from his first wife, a Boston woman.

## NICK BAWLF THE SPRINTER

The Ottawa Football Player Would Like a Race with Postle or Cartmell.—Get a Reputation Nick.

Ottawa, April 5.—"Yes, I'll run Postle, Cartmell or any of them," says Nick Bawlf, who as springtime comes around, casts eyes at the reinstatement brush for since playing hockey with Halesbury last winter Nick is barred out of baseball and track work, and he sure loved to tear over the cinders.

When the C.A.A.U. championships were run here last year, Nick got in the final of the hundred with Bobbie Kerr and beat the Hamiltonian—forty yards of the distance then dropped back and ran a dead heat with Mike Smith for the bronze badge.

The city baseball league loses one of the most interesting basemenners it ever had with Nick's departure. He could steal all kinds of bases, and say when it came to scoring from second on a hit, Nick was the boy who went for it every time. Nick could hunt a little, but he was never a fence-breaker. He was always able to get on somehow or other, and once on he usually got all the way around.

## Big Baseball Deal

New York, April 6.—Manager McLaughlin of the New York Giants, has traded outfielders Litzog and Collins to the Boston of the National league for outfielder Becker. News of the trade came today from Norfolk, where the Giants are playing.

## NEW GYM. FOR FAIR HARVARD

Wearers of the Crimson will Have a Gymnasium, Costing in the Neighborhood of One Million.

Boston, March 5.—A million-dollar gymnasium for Harvard, which is to be the biggest and best in the world, is being planned by the Crimson alumni. While no public announcement of the project has been made, it is generally understood here that the organization for the collection of the giant fund is already complete, that the site has already been settled upon, and that it is hoped to have work begun within a year.

Tentative plans are for a one-story structure, with an arched roof of steel and glass 65 feet high, except where the administration offices occupy a second story in the facade. The gymnasium proper is 202 feet by 96 feet, which is the biggest gym now in use. The roof over this exercising hall is seventy feet from the floor. An outdoor track and hand ball and tennis courts are provided behind the starts and shot-put practice room, which opens out of the exercising hall.

## Turner Won the Bout

Richmond, Va., April 5.—Joe Turner, of Washington, defeated Carro Ahmed, Turkish champion, in a wrestling match here last night, taking two of three falls.

## MORAN AND ATTELL DRAW

These Clever Boys Have Now Fought Three Battles, Totalling 58 Rounds Without a Decision Being Given.

New York, April 5.—The only way to settle the question of superiority between Abe Attell, the champion American featherweight, and Owen Moran, one of the best of the British featherweights, in the opinion of the big majority of those who saw their ten-round clash at the Fairmount Club last night, would be to start them going some evening at six o'clock and keep them at it until one or the other was down and out.

The lads have now fought three battles, a total of 58 rounds, and it is still the toss of a penny between them. The majority of newspaper critics today say that Attell won by a shade, but they all admit that a referee would hardly have been justified in giving a decision on it.

The fight demonstrated that if Attell had Moran's punch or Moran Attell's cleverness, either would be a world-beater. Moran tried round after round to get through Attell's defence, but could find few holes until the last two rounds, when his superior strength — he weighed seven pounds more than Abe—enabled him to land a few good punches.

One of these opened an old wound on Attell's left pepper. It was a good thing for Abe that this blow came in the tenth round, for the flow of blood was rapidly blinding him when the final gong sounded. Attell landed several score of light blows on Moran. The consensus of opinion was that the two lads, fellows have now got on to each other's style so effectively that it would be impossible for either to gain a victory except in the finish fight. In such a fight Moran would probably be the favorite.

### "YOUNG TURK" GETS BRIDE AS REWARD

Will Marry Sultan's Niece Although he has Only Seen Her Brother's Photograph.

Berlin, April 6.—Enver Bey, leader of the Young Turks and Turkish military attaché here, whose betrothal to a niece of Sultan Mahomed and ex-Sultan Abdul Hamid was announced recently, makes no secret of the fact that the Princess was bestowed upon him in accordance with the ancient Turkish royal custom as a reward for the prominent part he took in over-

throwing Abdul Hamid's regime in Constantinople.

Enver Bey has never seen the Princess, who is 16 years old, but he laughingly tells his friends that he has seen her brother's photograph, and if the sister looks anything like him he expects happiness.

While gratefully accepting the Sultan's gift, Enver Bey has asked to be allowed to postpone the marriage for two years to enable him to extend his international knowledge by residence in England and France. For the present he will retain his attachéship here.

Mr. Travis Barker has resigned the presidency of the Edmonton and District Temperance Union.

### City Should be a Big Company

(Continued from Page One)

photographs and diagrams. Commissioner Butchart and Aldermen Gariepy and Armstrong all wore out their voices in reading it.

#### Officials Not to Blame.

In placing the blame of the present state of affairs on the civic organization, Mr. Francis stated very emphatically that he discovered nothing wrong in the various departments and that the integrity of the civic employees was not to be questioned.

"The chief trouble seems to be in the organization of the board of Commissioners," said the report. "The authority of the various departments is not clearly defined and so nebulous is the power of the board that the superintendents have to go to the council in many cases."

"The present system should be re-organized and one substituted that would tend to the rapid and perfect carrying on of business and the prevention of wrong doing. The city should be one large company. The people are the shareholders; the council the directors; the commissioners the managers; and the heads of the departments the superintendents."

#### Council Purely Legislative.

"The council should be legislative only and should not deal with the business of the utilities. This is proper as they are usually only in office for a short term. The board of Commissioners should be the managers of the utilities and should give their whole attention to them. It is proper that the Mayor should be on this board, as he is the link between the legislative and the business side of the city. One of the Commissioners should be a broad-minded business man. The other should be an engineer. Two engineers are not needed. Therefore, in my scheme, I have abolished the office of city engineer."

"The superintendents should be responsible to the Commissioners. They should report at stated intervals and every month a meeting of all city officials from superintendents up should be held at which affairs generally will be discussed. Between the Commissioners and the council there are the

city solicitor, auditor and secretary-treasurer. A purchasing agent should be with the board and should be the link between the city and the markets. There should be a mail department and all letters in and out should pass through one man. No superintendent should have access to the council in his official capacity."

Mr. Francis stated that if such an organization were adopted he could not see why the business of the city should not be carried on in an ideal fashion. In speaking of the engineering problem, he stated that the future should be considered. He estimated that in 1920 the population of the city would be 100,000. The incinerator, the power plant, sewage and waterworks system were also discussed.

#### Blunders on Pump House.

When the meeting was called to order, Mayor Lee was in the chair, with Commissioner Butchart at his right and Aldermen Armstrong, Hyndman, Mould and McKislay around the table. Aldermen Millar, Lundy and Gariepy came in. Ald. McInnis came later.

"We are all familiar with some of the stories that were in circulation before this investigation was begun," said Ald. Armstrong. "In fact, so strong were they that some men were ready to take affidavits. Now, when these stories were investigated it was found that there was nothing in them. We must pay for them, however. When Mr. Francis came it was suggested it would be best to get the facts first. This was done."

After the reading of the preamble the state of the new pump house was gone into. Mr. Francis scored the work that has been done on the building, characterizing it as uselessly ornate for a building of its kind, and pointing out the bad work that has been done on the south wall.

"There are cracks in the walls; the south wall has bulged outward about five inches; the keystone has sunk about three inches, and taking everything into consideration, I should like to see this building razed and rebuilt properly." (So read the report.)

Mr. Francis also recommended that some of the brick work should be taken down and replaced at the contractor's expense.

"Who is the contractor?" asked one of the aldermen.

"Mr. Dunlop," was the reply.

"The pumping engine is not good," the report continued. "It vibrates, and cannot handle the required supply. The contracting firm should either take it back or fix it up. Changes to the 20-inch main were also recommended."

Ald. Mould: "It seems to me that this building is so badly shaken up that it ought to be entirely demolished."

#### Where Does Blame Lie?

Ald. Hyndman: "Dollar upon dollar has simply been thrown away in that building. Somebody is to blame, and it looks as though it was the architect."

Ald. Mould: "I believe that the architect was not asked in regard to the foundations or the material. He was asked to make plans for a building to be erected on the foundations which were already there."

Ald. Hyndman: "Francis does not state who is responsible. If we could find out who laid the foundations, I think we would be able to get the responsible party."

Ald. Lundy: "But the architect should have examined the foundations."

Ald. Hyndman: "If we find the responsible person, somebody's head will have to be cut off."

Mayor Lee: "The material used was poor, too. It is quite possible to shove whole rows of bricks off the wall, by hand."

Ald. Armstrong: "Yes, and the bricks and mortar will crumble in the hand."

Ald. Hyndman: "Is the architect supposed to be superintending the building?"

Mayor Lee: "Yes, I believe so." Ex-Ald. Fraser: "It is an architectural fault all through. Too large a keystone has been used in the arches, and is slowly sinking and thus pushing the walls out."

It was also pointed out by the Mayor that Contractor Dunlop had been asked to rebuild the walls, and he refused. The city still owes him \$500, and holds his bond for \$2,000.

#### To a Museum.

In speaking of the power plant Mr. Francis said it was a "museum of machinery and a notable example of the art of the manufacturers' agent. Mr. Francis stated that several of the engines and other machines in the power house should now be dis-

carded. "Edmonton should never have seen the gas engine," said he. Continuing the report said the present engine room should be removed, as it was in bad shape. It was also advised three of the present group of buildings be removed, and the power and waterworks plant be consolidated. The gas engine plant should be put in running order right away. All the operators should wear uniforms. The discarded plant should be sold at once, and a proper office rigorously kept.

The relation between the water, light and street car departments was shown, and the question of the proportion of capital expenditure for each department settled. Various economies that might be wrought in the various departments were also pointed out.

### Hot Words Over Market Sites

(Continued from Page 1.)

"We are all familiar with some of the stories that were in circulation before this investigation was begun," said Ald. Armstrong. "In fact, so strong were they that some men were ready to take affidavits. Now, when these stories were investigated it was found that there was nothing in them. We must pay for them, however. When Mr. Francis came it was suggested it would be best to get the facts first. This was done."

After the reading of the preamble the state of the new pump house was gone into. Mr. Francis scored the work that has been done on the building, characterizing it as uselessly ornate for a building of its kind, and pointing out the bad work that has been done on the south wall.

"There are cracks in the walls; the south wall has bulged outward about five inches; the keystone has sunk about three inches, and taking everything into consideration, I should like to see this building razed and rebuilt properly." (So read the report.)

Mr. Francis also recommended that some of the brick work should be taken down and replaced at the contractor's expense.

#### Now the Time to Move.

"I do not see any property north of Jasper avenue," he said, "so I do not speak from any personal interest. But I might point out to those gentlemen who have spoken about the loss to property holders that the possibility of the present site being used for other purposes was spoken of several years ago. If the property holders around the square were so sure of the site being always used as a market square it seems strange that they have not had faith enough to put up a better class of building."

It will be also a little necessary to remove the market site some time in the near future. Therefore it should be done now while other sites centrally located, can be secured for a reasonable price."

Kenneth McLeod then took up the cudgels for the supporters of the Rice street site. He stated that when several lots bordering on Queen's avenue were bought from the Heimlich estate it was stipulated that they should be used for market purposes.

#### A Wild Cat Scheme

"The whole campaign to move the market up First street," he declared, "was the wildest sort of a wild cat scheme. It was done to boom property in that part of the town."

"Hear, hear!" cried Ald. McInnis, and he looked as though he meant it for other purposes.

"The whole campaign to have the site moved," continued Mr. McLeod, "was conducted by a certain few interested property owners. I could name you a man who contributed \$500 for automobiles on the day the bylaw was submitted to the people. No wonder they were able to carry it by a big majority. And anyway I will guarantee that the majority of the burgesses understood that the First street site was to be for a hay market only."

A. G. Harlan then asked the mayor's permission to reply to a few of Mr. McLeod's remarks.

Lost in Fight; Are Squealing.

"When the first \$40,000 was voted for the new market site," he began, "but was interrupted by cries of 'hay market.' It was a hay market."

Mayor Lee had to pound his desk with much vigor before he could restore order.

"In regard to the charges that have been made," he continued, "that several of us contributed money as a campaign fund, I would say that, as far as I am concerned I never gave a cent. I might point out, however, that that gentleman there (pointing at Mr. McLeod) himself gave \$200 for vehicles. I have to admit, however, that he did not get any votes."

"The truth is that these fellows there got beaten fair and square and now they come here whining about it."

Cheers from the First street site advocates.

"The old market site must be preserved for the city hall," concluded Mr. Harlan. "If it is not we will have no place suitable for a civic centre."

Mr. McLeod here jumped up and stated that he never contributed a cent to any campaign fund, but was ruled out of order by the mayor, who said that they were not conducting a public debate.

James East remarked that most of

## HASSAN

Cork Tipped  
Cigarettes

The Oriental Smoke  
Ten for ten cents

Smokers have caught on to their low price and fine quality

the complaints seemed to come from the "vested interests."

"But you must remember," said he, "that there are other interests, the interests of the city at large. And sometimes it is necessary that a few citizens should sacrifice a little for the sake of the whole city."

#### Public Meeting Outside

This concluded the public debate on the market question and most of the spectators adjourned to the city hall steps, where an impromptu meeting was held. Fully a hundred citizens crowded around the steps and so great was the excitement that often three or four were shouting their sentiments at the same time. Statches of their speeches and an occasional burst of cheering could be heard in the council room where the discussion on the same question was being continued by the aldermen.

Ald. McInnis, in referring to the matter said that he thought the question had not been put to the people fairly. He said that the bylaw was passed for the purpose of securing a site for a hay and coal market and that it was distinctly understood at the time that the present market site would be retained. Ald. Hyndman thought that it would be a good idea to have the city solicitor to make a report in writing as to what power the city had to use the present market site for other purposes.

"If the land was bought on the understanding that it was to be used for a market site," he declared, "it is quite possible that some citizen may have a claim against the city if it is used for city purposes."

Commissioner Butchart and Solicitor Bowen agreed that the city could use the land for any purpose it wished. If it had been a gift to the city it would have been a different matter as under a deed of gift the land could be used only for the purpose for which it was given.

It was decided to take the matter up again at the special meeting on Thursday evening. Ald. Armstrong also suggested that it would be a good idea to discuss this question at the public meeting tomorrow night to see which way the popular feeling ran.

### SENT TO AMERICA TO PICK POCKETS

Child's Parents Shipped Him From Russia to Make a Living by Sneak Thieving

New York, April 6.—Harry Litzy, 14 years old, of 86 East 104th street, confessed in the Children's Court yesterday that his parents had sent him here from Russia because they believed he "could make a better living here as a pickpocket, and that if he was arrested he would be sent to an institution where he would get an education." He was brought before Justice Mayo yesterday for trying to snatch a purse from Mrs. Edna Walker, of 323 West Twentieth street, as she was boarding a subway train at 14th street. She pulled the boy inside the car and put him in charge of the guard, who looked out for him until they reached the next station.

The boy said he had been here only two months, having come from Rus-

sia under the name of Herzal Cohen with a woman. At Ellis Island, he said, they were detained for nine days, when a man came from Brooklyn and told the authorities that he was Cohen's father and would take care of him. He had not seen the man since leaving the island, he said. Justice Mayo remanded him until April 8.

Ernest K. Coulter, the chief clerk of the Children's Court, said that he intended to write the immigration authorities and call their attention to the case, as he believed that it was by no means an uncommon thing for parents to ship their children to this country and arrange to have some one claiming to be a relative meet them.

### LEND MONEY TO STUDENTS

Important Movement Being Inaugurated at McGill University.

FACULTY BEHIND SCHEME

Aim to Prevent Haughty of Deserving Students Having to Leave College to Get Funds.

Montreal, April 6.—A new and important movement has been inaugurated at McGill University, and if brought to a successful issue will mean untold benefit to many needy students. The idea is to establish a fund, from which sums of money might be loaned to students to enable them to complete their courses, the sums borrowed being repayable within a certain number of years after graduation. It is a great hardship that many deserving and earnest students must leave college for a year or two in order to earn the money to pay fees. This interrupts their work and at the same time their progress for any business connections which may be broken during this time must be broken.

No definite action to collect the fund has yet been taken, but the actual condition of affairs is being discussed by submitting the matter to the students, as the promoters of the scheme wish to be quite sure of the necessity and advisability of such a fund before taking any steps in the matter.

In order to compile the required statistics, the following four questions are to be submitted to the students:

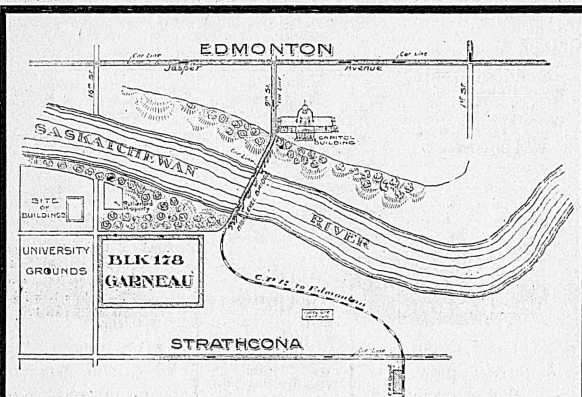

(1) Have you been obliged to earn all the money to pay for your college course?

(2) If not, have you been obliged to earn a portion of it, and if so, how much?

(3) Have you been obliged to interrupt your course by remaining at work in order to obtain means?

(4) Do you think that any really useful purpose would be served by the establishment of a fund from which sums of money might be loaned to students, these sums being returnable within a given time?

Those promoting the scheme are certain members of the professional staff, particularly some members of the Faculty of Medicine. It is found that conditions warrant it. Efforts will be made to establish a substantial fund to be in accordance with the above.

The Best Buying on Either Side To-Day is in Block 178

## GARNEAU

OF STRATHCONA.

It is within 200 yards of the new University Buildings, immediately opposite the new Alberta College (now building) and overlooks the Parliament Buildings.

The natural beauty is unsurpassed, the neighborhood will be fashionable, the rate of fare will be five cents, and the distance less than the majority of the lots in the Great Estate south of the railroad tracks.

Let us drive you over and prove the above assertions.

### BASEBALL DOPE FROM CALGARY

**Cowpunchers Will Retain Parkes and Gehan.**—Windy Bill Donovan is Sold to Regina.

Calgary, April 5.—The local baseball fans will be glad to learn that Parkes and Ed Gehan, Calgary's star pitchers of last year's team, will again be seen in a local uniform.

This was a statement made by President Sam Savage last evening, who received a letter from Carney to that effect. The Calgary manager said he took a trip to Tacoma, and while there saw Gehan working out. He said Ed was going faster and better than he was in line shape and has speed and control to burn. If Edward keeps it up he will be a fixture with Calgary. Parkes will also be along as the reports to Parkes credit show him in good shape also.

Yesterday the deal between Calgary and Regina was completed whereby the Saskatchewan capital purchased outright Bill Donovan. Bill should make a valuable addition to Rocky Walter's bunch. He is a good outfielder and one of the best hitters in the league last year, and will fill in for the Regina team, a place where Rocky was weak.

"Pop" Gouche will be in line. He has already sent in a signed contract and states he expects to play better ball than ever. Everything on the farm is going splendid with "Pop" and he is making arrangements so he can get away for the season.

The first baseman signed by Calgary played sixty-six games in the Northwestern last season. He had 604 put outs, 30 assists, 17 errors with a fielding percentage of .974. In batting his average was .335, 415 runs, 42 hits, 94 average .216. He hit 17 two-bases, six three-bases, and 13 home runs.

When "Chuck" Connors reports to Manager Carney, "Chuck" will bring along a friend who is a first class pitcher. Chuck is not handing out any hot air about this pitcher, but just says "to wait and see him." This pitcher is coming west because he is a great friend of Connors and wants to play ball with the same team as Chuck. Besides he wants to see this western country.

The Calgary baseball club received another letter from Carney yesterday in which he states he has signed a pitcher named Chapin, whom he expects to do great things this summer. Bill also asked for some cash to keep the pot going, making a total for \$700. This money was wired Carney right away.

### ARMY MEN MUST KEEP UP TO FORM

United States Officers Must Ride Six Miles a Day or Walk Three Miles.

Washington, April 6.—The annual physical test for army officers prescribed by Former President Roosevelt will probably be amended by order of Secretary of War Dickinson and made much more drastic. Several months ago, at the direction of the Secretary, the general staff began the work of revising the physical test order. Mr. Dickinson believes that the purpose of the physical test will be better attained by having a weekly or monthly test, rather than an annual test, ride or walk.

The general staff has completed a tentative order requiring that mounted officers ride an average of six miles a day, or 150 miles a month. Unmounted officers must walk an average of three miles a day or seventy-five miles a month. But that isn't all. An annual physical test to determine the endurance of the officers also will be required.

The proposed order is being tried by officers at Fort Myer, Fort Leavenworth and Fort Riley. To mention the general staff at Fort Myer just now is almost ground for a fight. If the reports from these posts are favorable the proposed order will be promulgated. The test prescribed in the Roosevelt order required only an annual ride of ninety miles in three days or a walk of fifty miles in the same period. The proposed order will require 1800 miles of riding in a year or 900 miles of walking exercise. In addition there must be included an annual endurance test.

## WOLVES KEPT CLOSE GUARD

Two Men Spent Cold Night in Tree With Pack Below.

**HAD NO MEANS OF DEFENCE**

Were Walking in the Woods Near Lataque, Que., When Pack of a Dozen Wolves Overtook Them.

Ottawa, April 6.—To sit all night in a tree with wolves growing underneath was the unpleasant experience of two men near Lataque, Que., last week.

"It was the most exciting night I ever passed through in my life, or ever expect to pass," said Mr. William Medgie. "To spend an entire night and a cold one too—up a tree with a dozen ravenous wolves down on the ground waiting for one, is an experience which will not be readily forgotten."

"After supper last Sunday night Dr. Michael Boudreau, Mr. H. P. Kinney and myself started out on a five-mile walk to visit a friend of ours, Mr. E. Duncan."

"It was late at night when we began our tramp over the road leading through the woods. Shortly after leaving Dr. Duncan's house Kinney happened to look back and saw three animals following us."

"They're wolves as sure as you live," said Kinney. "They're right on our trail and we had better watch ourselves."

"Dr. Boudreau laughed at the idea. He said they were a trio of contractor's dogs."

"Every time we stopped we noticed that the three animals stopped. The moment we started to walk again they would start too."

"They're just dogs," said Dr. Boudreau again. He was going back to put their heads and prove to us that he was right."

"As he approached they began to growl and bark and we could hear distant answering growls and barks away for back in the forest. This caused Dr. Boudreau to give up his dog idea. He agreed with Kinney that they were wolves."

"The three of them were getting braver as the barking of the other wolves became more distinct."

"We saw that it was up to us to do something. When the second pack came up they were sure to tackle us. We were three miles from Lataque and we had no guns or anything with which to defend ourselves. The wolves were approaching very rapidly by this time, and in our hurry we all climbed up one small tree."

"Two minutes later 10 or 12 wolves were surrounding the tree, looking up at us and growling angrily."

"We were in great fear lest the slender tree should give way. It was swaying to and fro, with our weight in a most threatening manner."

"All night we huddled together up in that tree. The night was bitterly cold and we could not even stretch ourselves to warm up because we were afraid that the little tree would give way."

"At daybreak the wolves slunk away like whipped curs."

"When we got back to Lataque Dr. Boudreau found that one of his toes was frozen. Apart from this, none of us sustained any injury, but I forget the terrors of that night."

**Chinks Will Be There**

New York, April 6.—John J. Gleason, partner of "Tex" Rickard in promoting the Jeffries-Johnson prize fight, declared today that while not a ticket had been sold for the contest, which is to take place at Eversleyville, Cal., he had a demand for reservations had been received from many parts of the world. "We have even a request from China for 150 seats," said Gleason at his hotel, "and Hugh McIntosh is to bring a big delegation from Australia."

**Hibernians Won the Game.**

The Hibernians defeated the S.O.E. last evening at the exhibition grounds in a game of association football, the score being 3 to 0. Some fast work and good play was exhibited by both teams. Grant and Houston of the Hibernians were especially prominent, each having a goal to his credit. The position of the teams in the city league schedule, from time to time, will be watched with great interest, as they are the only teams playing an exclusively inter-league.

## Report Pleasid Norwood People

(Continued from page one.)

**Stop Burning Manure.**

"Owing to the fact that by far the greater proportion of the work at the local incinerator," said the engineer in his report, "is the burning of manure, the situation here is unique. Out of a total of 13,924 tons of material destroyed last year, 12,715 tons were manure. It seems unjust to ask all the citizens to help pay a tax that really benefits only a few. If there were some other way of disposing of the manure, then the garbage question in Edmonton would be a very simple one. It is quite reasonable to expect that within the next four or five years market gardens will spring up around the city as has taken place at Winnipeg. When this is the case the manure question will settle itself."

"In the meantime, however, I would recommend that we discontinue the practice of burning the manure in the incinerator. As an alternative to this it will be necessary to secure a dumping ground or grounds where this could be disposed of."

"If the incinerator cannot be operated to dispose of our garbage in a sanitary manner and free from odor, it will be necessary to abandon it."

**A Bill of Grievances.**

A largely signed petition from the Edmonton Municipal Improvement League was then read. It asked that the Burns slaughter house be closed, that the Namayo avenue ditch be filled in, that the Rat Creek sewer be looked after, that a new location be secured for the incinerator and that the filling of low places with manure and the escape of sewer gas at the corner of Norwood boulevard and Kirkness street be stopped. Ald. Garfield suggested the bill of grievances be referred to the Commissioners. It was pointed out, however, that as there was a large delegation present to give their reasons why the incinerator should be removed, and they should be heard first. Dr. H. L. Collins, 116 Norwood boulevard, spoke for the league.

"I would give some reasons," said he, "why the incinerator should be taken outside the city limits. First, Norwood will become the largest residential district of the city, for there is lots of land there. It is connected with the city by the street cars and is not cut off by railways and ravines. Were it not for the incinerator the growth of this portion of the city would be much more rapid than it is. Four shrewd investors asked me today if I knew whether the incinerator would be removed. They said that property in that part of the city was cheap now but that when the incinerator went it would become very valuable."

**Hurt Hospital and Fair.**

Dr. Collins then dwelt upon the offensive odor emanating from the incinerator, and pointed out that the new city hospital would be affected by this. He also said that Superintendent Clendenning had stated very emphatically that they had to keep the windows of the Norwood school closed most of the time.

"The smoke and odor will also affect the exhibition grounds," continued Dr. Collins. "You expect to bring big crowds there and after smothering them in the first place you will sugar cure them in the smoke from that monster."

"Dr. Whitelaw has been an advocate of the incinerator all along," said Dr. Collins, but the medical health officer was present and stated that he had not advocated it, that the incinerator was there and he had only done his best with it."

"Surely a Daniel has come to judgment," said another member of the league speaking of Mr. Latorelli's report.

**Assurances Given.**  
Ald. Hyndman said that he thought the council was willing to do everything in its power to get this matter closed up. "If we close it tonight," said he, "what will we do when the stuff? Give us time and we will fix it up for you."

Mayor Lee closed the discussion by assuring the delegation that the council would act as soon as possible. The matter will be taken up at Thursday night's meeting.

A request from the Gun Club to be permitted to use the Exhibition Grounds for trap shooting was refused.

The plans for the new buildings on the Exhibition Grounds, which are to cost \$8,000, were submitted. They will be gone into later.

Cameron Anderson, a contractor who has no office, but has a telephone in his home, wrote to the council stating that he had had his plan taken out because he refused to pay a business rate on it.

"I would like to know whether we

are handling our phones for the benefit of the city at large or for the purpose of declaring a large surplus at the end of the year?" asked Mr. Anderson. W. R. Griffith, superintendent of the telephone department, pointed out in a letter that the conditions printed on the subscriber's application form state definitely that a phone in a private house used in a business way should be paid for at the business rate. The letter was referred to the Commissioners with power to act.

**Library Site Left Over.**  
Letters from C. Ross Palmer and J. R. Macintosh in regard to the library site were laid on the table to be taken up at the next meeting. The one from Mr. Palmer asked the council to put the bylaw asking for \$55,000 for the site, and also to put a plebiscite in order to determine which site shall be used.

A protest from the builders' exchange asking that all city tenders be opened at a specified time in order that the tenderers could be present, was granted.

The city solicitor was given the power to issue writs of summons to collect small departmental accounts, without first getting permission from the council.

## WOMEN HAVE THE BALLOT

Men of Indian Tribe Appeal to Government for Votes.

**CHIEFS APPOINTED BY WOMEN**

Deputation Tells Minister of Interior That the Custom is Pagan and Extraneous.

Ottawa, April 6.—A deputation of 14 Indians from the Six Nation Indian House met Hon. Frank Oliver in the House of Commons and presented a petition containing 68 names, a majority of the Indians, asking to have the old hereditary mode of controlling Indian affairs changed to representative government such as is enjoyed by the white Canadians.

Mr. Oliver stated that he could not grant them their wish on a bare majority, but if they would wait a little while he would give their request the consideration.

The deputation was accompanied by Hon. William Patterson, Lloyd Har-

ing, M.P., and H. H. Miller, M. P.

"The present system of government of the Six Nation Indians is hereditary. That is, the women appoint the chiefs," stated Mr. Nelles Montour, a deposed chief of the Six Nations. "The system is truly pagan, for these women go out and pick some man (it does not matter who he is) and take him to the long house, where they march him up and down at the time chanting and going through curious motions. After a couple of days of merry-making the chief is made, and that is the way we are governed."

"The system is supposed to have originated as far back as 1300, when all Indians were Pagans, but now the majority of our inhabitants are Christians and we are practically ruled by a Pagan council. This council is composed of 80 chiefs, all appointed by the women. They meet once a month. Just think, 80 men to govern 45,000 acres of land and 4,500 people. We consider this system to be detrimental to the advances of the Six Nations because a Christian will not become a chief since he refuses to go through the Pagan ceremonies. Then it costs, under this system, every man, woman and child, 90 cents per head, annually to support our council, which costs \$4,000 a year. We claim we are being robbed by our present system and that if we had representative government it would cost only ten cents per head."

"When I say that the system is hereditary I do not mean that the chief-

ship descends from father to son. This is not the part that is hereditary, but the privilege to appoint chiefs goes down from mother to daughter and they appoint anybody they like."

"We think we have a right to this change because all other nations in Canada have it, and are at present governed by councils chosen by ballot."

**Baseball Notes.**

If the weather keeps like this, Deacon White will probably take a trip to the coast to look over the Coast League recruits. Deak says it is just a question of weather, whether he'll go or whether he'll not. Mills and Barnstead are expected in the city today from Calgary, to start working out.

**New Hydrophobia Cure**

Ann Arbor, Mich., April 6.—Dr. James S. Cummings, director of the Pasteur Institute of the University of Michigan, today announced the discovery of a new method for the treatment of hydrophobia. The new treatment, Dr. Cummings says, eliminates many of the dangers attending the former methods and shortens the time of treatment by one week. Dr. Cummings uses a virus prepared from spinal tissues from a rabid animal. This is injected into the patient. The virus is said to have been used in several cases recently with marked success.

**PLOW MORE LAND—SAVE TIME**

**PLOW IT CHEAPER AND EASIER**

**THIS is a light two-furrow plow, yet remarkably strong and durable. The materials are of the very highest quality and the whole plow is a fine piece of workmanship throughout.**

It has an extra strong steel frame, heavy axles and dust proof bearings.

The fine adjustment ratchets will be found a great advantage.

It is also equipped with compound levers and spring lift of new design.

For 1910 all Empire Gangs are fitted with steel and malleable standards, which are unbreakable.

You can depend upon 15 to 20 years good work out of this plow—it is built to do good work that long—and it will.

**Why Cockshutt Implements are Successful**

**THE** Cockshutt standard of quality was settled over 30 years ago. When the first plow was turned out at the Brantford factory years ago it was the best in its day.

Credits, perhaps as compared with the plows nowadays, but still the best then. And 1910 finds Cockshutt Implements in the self-same place—on top—because Cockshutt Quality has kept on improving with the times.

The soft centre shares for stubble work in all Cockshutt plows—including these two—are the heaviest ever put on a plow by any manufacturer in the world. For breaking, either of these two gang plows can be furnished with rod mould-boards, which interchange with ordinary breaking boards.

# The Man From Brodne's

By GEORGE BARR  
M'CUTCHEON

Copyright, 1908, by Dodd, Mead & Co.

adorned and saves his own skin by killing them."

"In any event," said Browne, "you spoiled his little game. He loses the treasure, and he didn't get into the vaults. Rasula should take those points into consideration."

"He won't forget them, rest assured. That's why I'm sure that he'll take my word at the trial as against that of Von Blitz," said Chase.

"You—you don't mean to say, Mr. Chase, that you are going into the town?" cried Lady Agnes, wide-eyed.

"Certainly, Lady Deppingham. They are expecting me."

"Don't be foolhardy, Chase. They will kill you like a rat!" exclaimed Deppingham.

"Oh, no, they won't," said the other candidly. "They've given their promise through Rasula. Whatever else they may be, they hold a promise sacred. They know I'll come. If I don't they'll know that I am a coward. You wouldn't have them think I am a coward, would you, Lady Deppingham?"

The next morning he coolly set forth for the gates, scarcely thinking enough of the adventure to warrant the matter of fact goodbyes that he bestowed upon those who were congregated to see him off. His heart was sore as he strode rapidly down the drive. Generals had not come down to say farewell.

"By heaven," he muttered, strangely vexed with her, "I fancy she means it. She's bent on showing me my place. But she might have come down and wished me good luck. That was little enough for her to do. Ah, she's off, signed, putting it away from him."

As he turned into the tree-lined avenue near the gate a slender young woman in a green and white gown arose from a seat in the shade and stepped a pace forward, opening her parasol quite leisurely as he quickened his steps. Her eyes gleamed brightly, and she was breathing as one who has run swiftly.

"You are determined to go down there among those men?" she demanded, the smile suddenly giving way to a look of disapproval. She ignored his hand.

"Certainly," he said after the moment of bewilderment. "Why not? I thought you had made up your mind to let me go without a word for good luck." She found great difficulty in meeting the wistful look in his eyes. "You are good to come down here to say goodbye. We're almost strangers again."

"I did not come down to say goodbye," she said, her lips trembling ever so slightly.

"I don't understand," he said.

"I am going with you into the town—as a witness," she said, and her face went pale at the thought of it.

"Generous," he cried, "you—you would do that?"

"Why not, Mr. Chase?" She tried to speak calmly, but she was trembling. After all, she was a slender, helpless girl—not an amazon! I saw and heard everything. They won't believe you unsupported. They won't harm me. If I swear to them that what you say is true?"

Her hand was on his arm now, trembling, eager, yet charged with fear at the prospect ahead of her. He clasped the little hand in his and quickly lifted it to his lips.

"I'm happy again!" he cried. "It's all right with me now." She withdrew her hand on the instant.

"No, not I isn't that," she said, her eyes narrowing. "Don't misinterpret my coming here to say that I will go. It isn't because—no, it isn't that!"

"I was unhappy because you had forsaken me," he said gently. "You are brave—you are wonderful! But I can't take you down there. I know what will happen if they find him guilty. Goodbye, dear one. I'll come back—surely I'll come back. Thank you for sending me away happy."

"Won't you let me go with you?" she asked after a long, penetrating look into his eyes.

"I would not take you among them for all the world. You forget. Neither of us would come back."

"Neither of us?" she said slowly. "I wouldn't come back without you," he said quietly, earnestly. She understood. "Goodbye! Don't worry about me. I am in no danger."

"Goodbye," she said, the princess once more. "I shall pray for you with all my soul." She gave him her hand. It was cold and lifeless. He pressed it warmly and went quickly away, leaving her standing there in the still shade of the avenue, looking after him with eyes that grew wider and wider with the tears that welled up from behind.

Hours went by—slow, tortuous hours in which the souls of those who watched and waited for his return

were tried to the utmost.

Once there came to the ears of the watchers on the mountain side the sound of distant shouts, later the brief rattle of firearms. The blood of every one turned cold with apprehension. Every voice was stifled, every eye wide with dread. Neneah screamed as she died across the terrace toward the drawbridge, where Selim stood as motionless as a statue.

Luncheon time passed, and again, as if drawn by a magnet, the entire household made its way to the front of the chateau.

At last Selim uttered a shout of joy. He forgot the deference due his betters and unceremoniously dashed off toward the gates, followed by Neneah, who seemed possessed of wings.

Chase was returning!

They saw him coming up the drive, his hat in his hand, his white umbrella raised above his head. The eager, joyous watchers saw him greet Selim and his fluttering wife. They saw Selim fall upon his knees, and they felt the tears rushing to their own eyes.

"Hurray!" shouted little Mr. Saunders in his excitement. Bowles and the three clerks joined him in the exhibition. The princess was conscious of the fact that at least five or six pairs of eyes were watching her face. She closed her lips and compelled her eyelids to obey the dictates of a resentful heart. She lowered them until they gave one the impression of indolent curiosity, even indifference. All the while her incompressible heart was thumping with a rapine that knew no allegiance to royal conventions.

A few minutes later he was among them, listening, with his cool, half-satirical smile, to their protestations of joy and relief.

"Nonsense," he said in his most deprecating voice, taking a seat beside the princess on the railing and fanning himself lazily with his hat, to the mortification of his body servant, who waved a huge palm leaf in vigorous adulation. "It was nothing. Just being a witness, that's all. You'll find how easy it is when you get back to London and have to testify in the Skaggs will contest. Tell the truth, that's all." The princess was now looking at his brown face with eyes over which she had lost control. "Oh, by the bye," he said, as if struck by a sudden thought, "it is my painful duty to announce to the Medasmes von Blitz that they are widows."

There was a dead silence. The three women stared up at him, uncomprehending.

"Yes," he went on solemnly, "Jacob is no more. He was found guilty by his judges and executed with commendable haste and precision. He took

were tried to the utmost.

# A Merchant Must make it Pay You To Read His ADS!

WHATEVER he does to make his store of more importance to you than is the store of his competitor must be explained, hinted or suggested to you---and he can only do that by enchanting your attention to his ads.

He is aware that you "know things" about stores---about goods---values, prices. He, therefore, knows that to advertise something that is actually high-priced---or, not actually priced on a profit-dividing plan---is to merely give proof of the **non-usefulness of his store to you.**

Now, the merchant **knows** that his store **is** useful to you. And he knows that he must make it more and more so. So his problem resolves itself into this:

*That as only Good Values offered make good advertising, he must make everything in his store advertisable. Thus, to make store-keeping pay he must be a big advertiser; and to make advertising pay he must make it pay the person who reads it.*

The inexorable logic of modern business, therefore, compels the merchant to make it pay you to read his ads.

The princess was followed by her two body-servants.

his medicine bravely--twelve leaden pills administered by as many skillful surgeons. But it is yet too early to congratulate yourselves on our freedom. Rasula has promised to kill all of us, whether we deserve it or not."

"They shot him?" demanded Deppingham when he had finished.

"Admirably. By Jove, those fellows can shoot!" They accepted my word against his--which is most gratifying to my pride. One other man testified against him--a chap who saw him with the Boers not ten minutes before the attempt was made to rob the vaults. Rasula appeared as counsel for the defence. Merely a matter of form. He

knew that he was guilty. There was no talk of a new trial; no appeal to the supreme court, Brit; no expense to the community."

He was as unconcerned about it as if discussing the most trivial happening of the day. Von Blitz lived not ten minutes after sentence was passed.

"As to their intentions toward us," said Chase, "they are firm in their determination that no one shall leave the chateau alive. Rasula was quite frank with me. He is a cool devil. He calmly notified me that we will all be dead inside of two weeks. No ships will put in here so long as the plague exists. I asked him how we were to die, and he smiled as though he was holding something back as a surprise for us. He came as near to laughing as I've ever seen him when I asked him if he'd forgotten my warnings. 'Why don't you have them here?' he asked. 'We're not ready,' said I. 'The six months are not up for nine days yet.' I also made the interesting discovery that suits have already been brought in England to break the will on the grounds of insanity."

"But what good will that do us if we are to die here?" exclaimed Bobby Browne.

"None whatsoever," said Chase calmly. "You must admit, however, that you exhibited signs of hereditary insanity by coming here in the first place. I'm beginning to believe that there's a streak of it in my family too."

"And you--you saw him killed?" asked the princess in an awed voice, low and full of horror.

"Yes. I could not avoid it."

"They killed him on your--on your?" She could not complete the sentence, but shuddered expressly.

"Yes. He deserved death, princess. I am more or less like the Moslem in one respect. I might excuse a thief or a murderer, but I have no pity for a traitor."

"You saw him killed?" she said in the same awed voice, voluntarily drawing away from him.

"Yes," he said, "and you would have seen him killed, too, if you had gone down with me to appear against him."

She looked up quickly and then thanked him almost in a whisper.

CHAPTER XXVI.  
CENTURIES TO FORGET.

"M'lord," said Saunders the next day, appearing before his lordship after an agitated hour of preparation, "it's come to a point where something's got to be done."

He got that far and then turned quite purple. His collar seemed to be choking him. "If what Mr. Chase says is true, we've got a precious short time to live. Well, we've concluded to get all we can out of the time that's left, m'lord. So I've come to ask if it will be all right with you and her ladyship, sir."

We don't want to do anything that would seem forward and out of place, sir."

"It's very considerate of you, Saunders, but what the devil are you talking about?"

"Miss-Miss Pelham and I have decided to get--get married before it is too late."

Deppingham stared hard for a moment and then grinned broadly.

"That's exactly, my lord. Haw, haw! It would be a bit late, wouldn't it if we waited till afterwards. Haw, haw! Splendid! So I have come to ask if you think it will interfere with your arrangements if--if we should be married tonight?"

"I'm sure, Saunders, that it won't discommode me in the least," said his lordship gently. "By all means, Saunders, let it be tonight, for tomorrow we may die."

"Will you kindly speak to her ladyship, sir?"

"Gladly. And I'll take it as an honor if you will permit me to give away the bride."

"Thank you, my lord," cried Saunders, his face beaming. His lordship shook hands with him, whereupon his cup of happiness overflowed, notwithstanding the fact that his honeymoon was likely to be of scarcely any duration whatsoever.

The wedding took place that night in the little chapel. Chase deliberately took possession of the princess after the hollow wedding supper had come to an end. Her mood had changed. Now she was quite at ease with him. The taunting gleam in her eyes presaged evil moments for his peace of mind.

"I'm inspired," he said to her. "A wedding always inspires me."

"It's very strange that you've never married," she retorted. She was striding freely by his side, confident in her power to resist sentiment with mockery.

"Will you be my wife?" he asked abruptly. She caught her breath before laughing tolerantly and then looked into his eyes with a tantalizing ingenuousness.

"By no means," she responded. "I am not oppressed by the same misfortune that actuated Miss Pelham. You see, Mr. Chase, I am quite confident that we are not to die in two weeks."

"I could almost wish that we could die in that time," he said.

"How very diabolical!"

"It may seem odd to you, but I'd rather see you dead than married to Prince Karl." She was silent. He went on, "Would you consent to be my wife if you felt in your heart that we should never leave this island?"

"I think I shall go in, Mr. Chase," she said, with a warning shake of her head.

"Don't, please! I'm not asking you to marry me if we should leave the island. You must give me credit for that," he argued whimsically.

McQuillan, King and Ormsby, the three inmates of the penitentiary charged with attempting to escape from custody, will be tried at the penitentiary this afternoon.

All the hotels are feeling the effects of the travel which has commenced with the advent of spring. Every day sees crowds of new arrivals in the city, many of them settlers who will locate in an around Edmonton, and the hotels are all crowded for room.

The elevator for the Alberta Hotel will arrive in the city and be installed in a few days. When this is done the work of enlarging the hotel will be commenced almost immediately. One of the features of the new addition to the Alberta will be a commodious and up-to-date grill room.

The wedding of William Wilson of the Oscar Brown Co. to Miss Hallie M. Banford, daughter of J. Banford Clara street, took place this morning at seven o'clock. Dr. Hunter performed the ceremony. Immediately after the wedding the newly married couple left for Hanf, where the honeymoon will be spent.

**COMPANY IN THE WRONG****Railway Commission Criticizes C.P.R. Over Townsite Question.**

Ottawa, April 6.—Chairman Maloe yesterday made some pointed remarks at the sitting of the railway commission with regard to the alleged practice of the railway companies in misleading the public with regard to location of townsites and branch lines. In granting an application of H. Grant Hanna, of Kipp, Alta., for an order directing the Canadian Pacific Railway Company to provide, construct and maintain a suitable station and railway siding "on the southwest quarter of section 29, range 22, west of the fourth meridian, province of Alberta."

Commissioner Maloe said that the company had led the public to suppose that it would place a station on this land and when it saw that this was not the case it wanted for a townsite by a private individual, it obtained an order-in-council permitting it to change its plans.

"We are all of opinion that the company is in the wrong," he said, "but we think that the applicant should have the railway's offer, which was not an unreasonable one."

C. A. Macgrath, member for Red Deer, appeared before the board and gave a full explanation of the circumstances of the case.

**Mrs. E. B. Osler is Dead.**

Toronto, April 6.—Mrs. Osler, wife of E. B. Osler, M.P., West Toronto, died yesterday, aged sixty years.

**Whole Town was in Danger**

Winnipeg, Man., April 6.—The town of Waterous, Sask., had a narrow escape from destruction by a prairie fire Monday. After hours of fighting the flames were stopped just at the edge of the town.

**Flour Mill Amalgamated.**

Winnipeg, April 6.—The six flour mills controlled by the Maple Leaf Milling Company in various parts of the Dominion, have been amalgamated under one management.

It's a fact, sir, that the road to prosperity is paved with good clothes, and is most easily trod by men who always dress in becoming attire. See our new Spring Suits. Mac's Clothing Store.

Ash Bros. for Silver Toilet Sets.

**Personal**

R. W. Jones, government railway engineer, is driving over the G.T.P. C. G. McLeod, of Foley, Welch and Stewart at Stony Plain is in the city.

A. T. Cushing, local manager of Cushing Brothers, has severed his connection with that firm.

Judge Charles A. Stuart came from the south yesterday and is registered at the Yale.

E. T. Henderson of Windsor, president and general manager of the Windsor Salt Works Co. is among the guests at the Alberta.

E. E. Chauvin, of McGeorge and Chauvin, who is ill with pneumonia, was reported as doing well today.

Mr. Z. Malhot of Calgary, Dominion government engineer, is in the city registered at the Alberta. Mr. Malhot is on a tour of inspection in the vicinity of Edmonton.

Mr. Frank Walker, M.P.P. for Pt. Saskatchewan, came into a city yesterday on his way south to Calgary to visit to horse show. He left for Calgary on the afternoon train.

**CANDIDATES IN McLEOD****Grady, Munnell, Steadman, Grier, McLeod are Names Mentioned**

The Macleod Advertiser in discussing the political situation in that riding, says:

Postmaster A. F. Grady has been asked whether he would be a candidate in the Liberal interest. Mr. Grady says he is willing to accept provided there is a guarantee that he is given a cabinet position. Mr. Grady would make a strong candidate and, as there are several vacancies in the cabinet, should be elected, it would be most fitting that one of the portfolios be assigned a Macleod man. Other names mentioned are those of F. H. Munnell and T. H. Steadman. Mr. Munnell is quoted as saying that he does not want the honor.

Ex-Mayor D. J. Grier announces himself as an independent candidate on a platform of opposition to the Rutherford Government.

For the Conservatives E. P. McNeill announces that he is ready to go before the convention as a candidate. Mr. McNeill declined to give assurance that Judge Sifton would be unopposed as that gentleman might be chosen by acclamation. He said he did not think he had the power to give any such assurance in the first place and that, if he did, it would not be fair to the Conservatives of the constituency or the province in the second place.

This is the political situation in Macleod today. There is abundant opportunity for all kinds of development before election day comes.

**Monoplane Successful.**

Halifax, N.S., April 6.—Alexander Graham Bell's men have made a new departure at Baddeck in the first flight of a monoplane in Canada. The light hard drone made nine successful flights yesterday. The drone is of the monoplane type and resembles in its general features the machine with which Illeriot crossed the British channel.

**Sent to Penitentiary.**

Winnipeg, April 6.—A. C. Smith, a colored man, and the son of a Toronto barber, was yesterday sentenced to seven years in the penitentiary for attempting to kill his paramour. He brought the girl here from Toronto and when she refused to live with him any longer he shot her, but the wound was not serious.

**THE DAY IN STRATHCONA**

Budget of News from the City on the South Bank of the River

**Strathcona Council.**

The full council took their seats. A considerable amount of business was handled. The eleven o'clock rule was suspended in discussion over payment of expenses.

A number of communications were received and dealt with.

R. Grant, a contractor on the Alberta College, wrote desiring to hire the cement mixer from the city for ten or fifteen days at \$3 a day. The communication was referred to the public works committee.

An application was received for the position of assistant city treasurer from Mr. R. A. Wray of Hamilton. This was filed.

Requests were received for building statistics and financial statement of the town and referred to the proper officers for answers.

The Strathcona Brewing and Malting Co. wrote asking for a six-inch main in place of their two-inch. On the report of the water and sewer committee this proposition was discussed at length. The superintendent of the waterworks department pointed out that the control of a six-inch main would enable any consumer to almost shut off the water pressure of the city. He advanced many other arguments against a main of this kind and suggested that a tank erected by this company would easily overcome the difficulty. The water and sewer committee were instructed to wait on the company and report in a week.

A petition was received from the owners of property along the south side of Whyte avenue from Main street to First street east, regarding the condition of the alley leading to their premises. A dump from an excavation was made there several years and the alley is several feet higher than adjoining properties. It was referred to the public works committee.

Five petitions for sidewalks and boulevards and four for sewer and water were read. These were referred to their respective committees.

Mr. Rankin of Millet asked permission to bring in petitions for water and sewer and walk that he had been unable to secure at the closing date for receiving such. This was granted him. He announced his intention of building at least three new houses on his properties in the western part of the city.

Ald. Congdon showed a statement of arrears on water accounts amounting to \$2514 at the commencement of the year. He moved that on May 1st the water be cut off where settlement of these accounts has not been made and that legal steps be taken to collect the same. This was passed.

Two bylaws were formally read and passed to borrow temporarily from the Imperial Bank pending the sale of debentures now held by the city, one for \$7,000 on debentures of \$1000 No. 307, and the other for \$800 on issue No. 331.

Inquiries were made: Concerning the purchase of property for sub fire stations in east and west ends of city; concerning the survey of the sewer line in south east part of city. The engineer promised a report on this within a month.

In answer to an inquiry concerning the Mill Creek bridge, Ald. Bush assured the council that the committee expected to wait on the public works department of the government within a week.

Ald. Tipton moved that a money bylaw be drafted authorizing the sale of debentures amounting to \$2,000 for the purpose of improving the park. The committee have in mind draining the park and building a 20 foot road nearly a mile long for present improvements. The motion passed.

Ald. Bush brought in a motion for paving, and a lengthy discussion ensued before any agreement could be reached. Mr. Bush's first proposition was for five blocks, one east and one west, on Whyte avenue; one north and one south on Main street, and one south on First street east. The

mayor took a seat in the council and moved an amendment that only the blocks on Whyte avenue west and on First street east be advertised, and the others left for petitions from the ratepayers. Another proposition was made by Aldermen Bush and Calder to add one more block on Whyte avenue east to the mayor's amendment.

The mayor's amendment carried by a majority of two.

The following accounts were ordered paid: J. D. Hutton, \$105; C.P.R. Co., \$3.10; McLean & Co., \$1.75; A. McBride & Co., \$7.70; Strathcona Coal Co., \$1,116.14; S. Smeed, \$1.60; E. L. Crumb, \$10.20; Blain & Co., \$1.20; A. H. Richards, \$2.95; McLean & Co., \$75; A. G. Baillie, \$20.00; Ingram & Bell, \$55.35; Edmonton City Dairy, \$29.05; Henry Skelton, \$1.80; John Hardy & Co., \$24.47; R. J. McDonald, \$104.45; W. J. Scott, \$100.00; Wilson & Herrald, \$28.30; G. J. Kinnaid, \$80.00; Dominion Express Co., \$32.00. A total of \$1,507.41.

The council adjourned until Friday night at 8 p.m. to proceed with estimates.

**Locals.**

Premier Rutherford left yesterday morning for the south.

A. K. Buckman has returned from a two weeks' trip to Athabasca Landing.

The Strathcona Board of Trade met yesterday at 10.30. There was a good attendance and a great deal of routine business was transacted.

The final C.N.R. survey party has reached the city from Castrating. The line passes through the Hotsan farm, Hazeldean, and enters the city limits at Rosedale subdivision.

A new hardware firm has located in the city, viz., Messrs. Vaukel & Barr. These gentlemen have taken over the business formerly operated by W. E. Ross.

The Strathcona School Board has purchased 425 chairs formerly owned by the Strathcona Opera House, to be used in the assembly hall of the school. These are very serviceable folding chairs and will prove very useful in that they may be folded up and put in compact space when not in use.

The second meeting of the Varsity Block Parliament was held in the assembly hall last night. Many bills and petitions were presented. Several very neat speeches were made with reference to the bill regarding the wearing of gowns by the students.

The Varsity Y.M.C.A. executive met yesterday after setting business for the present year made extensive plans for the coming year. It was decided to discontinue the Bible study classes in connection with the Y.M.C.A. after next Sunday's meeting.
